

# Dragonfly

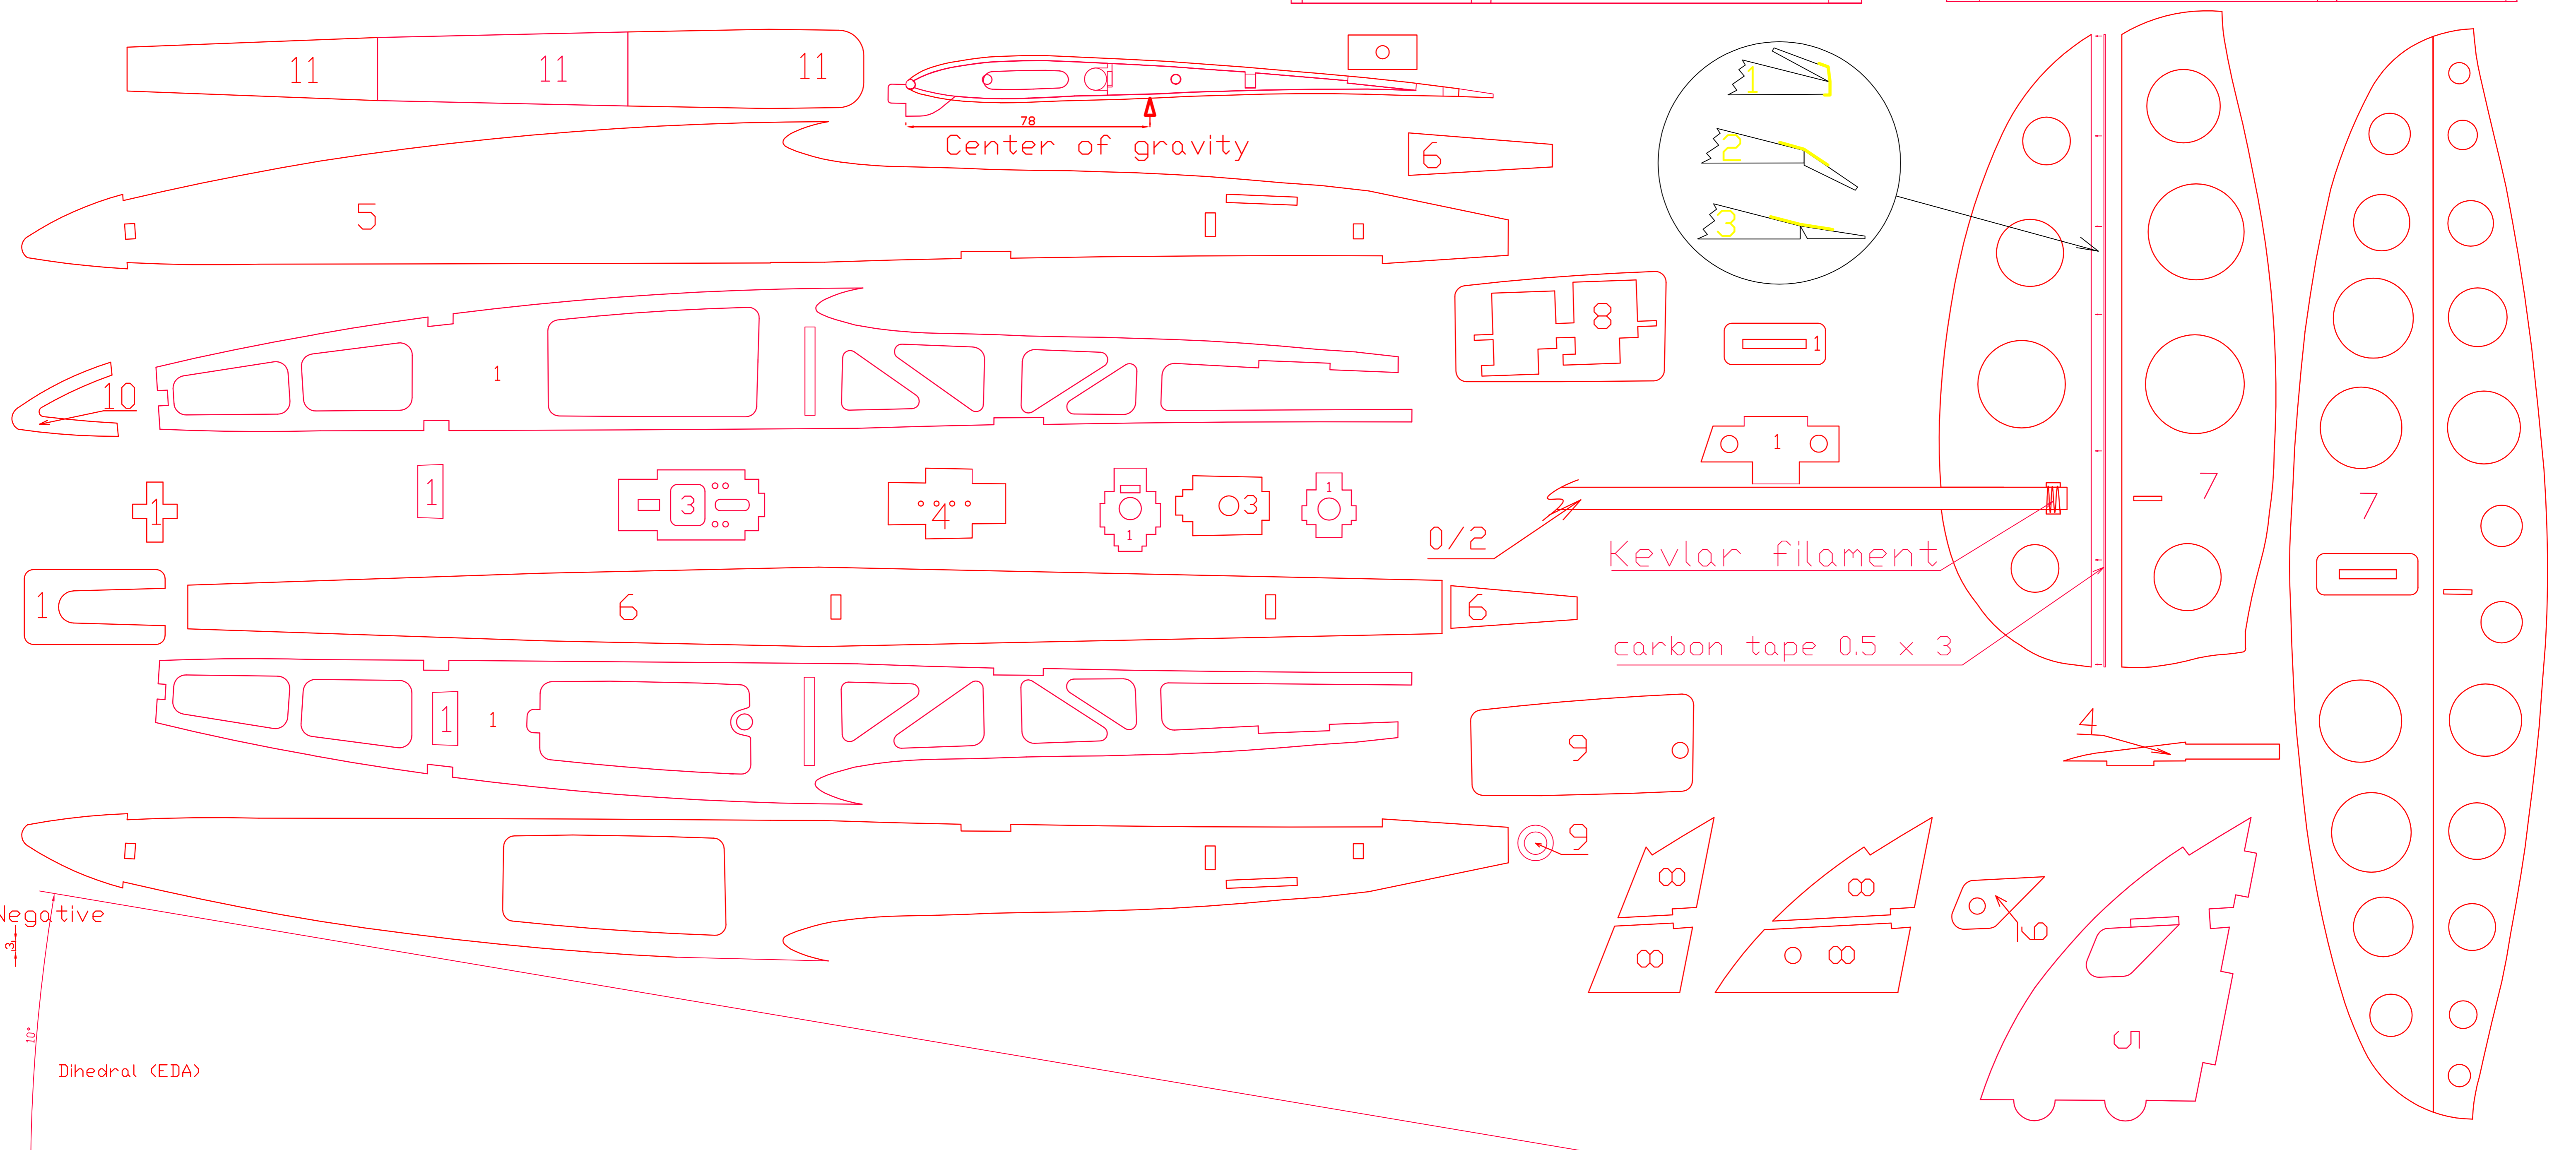

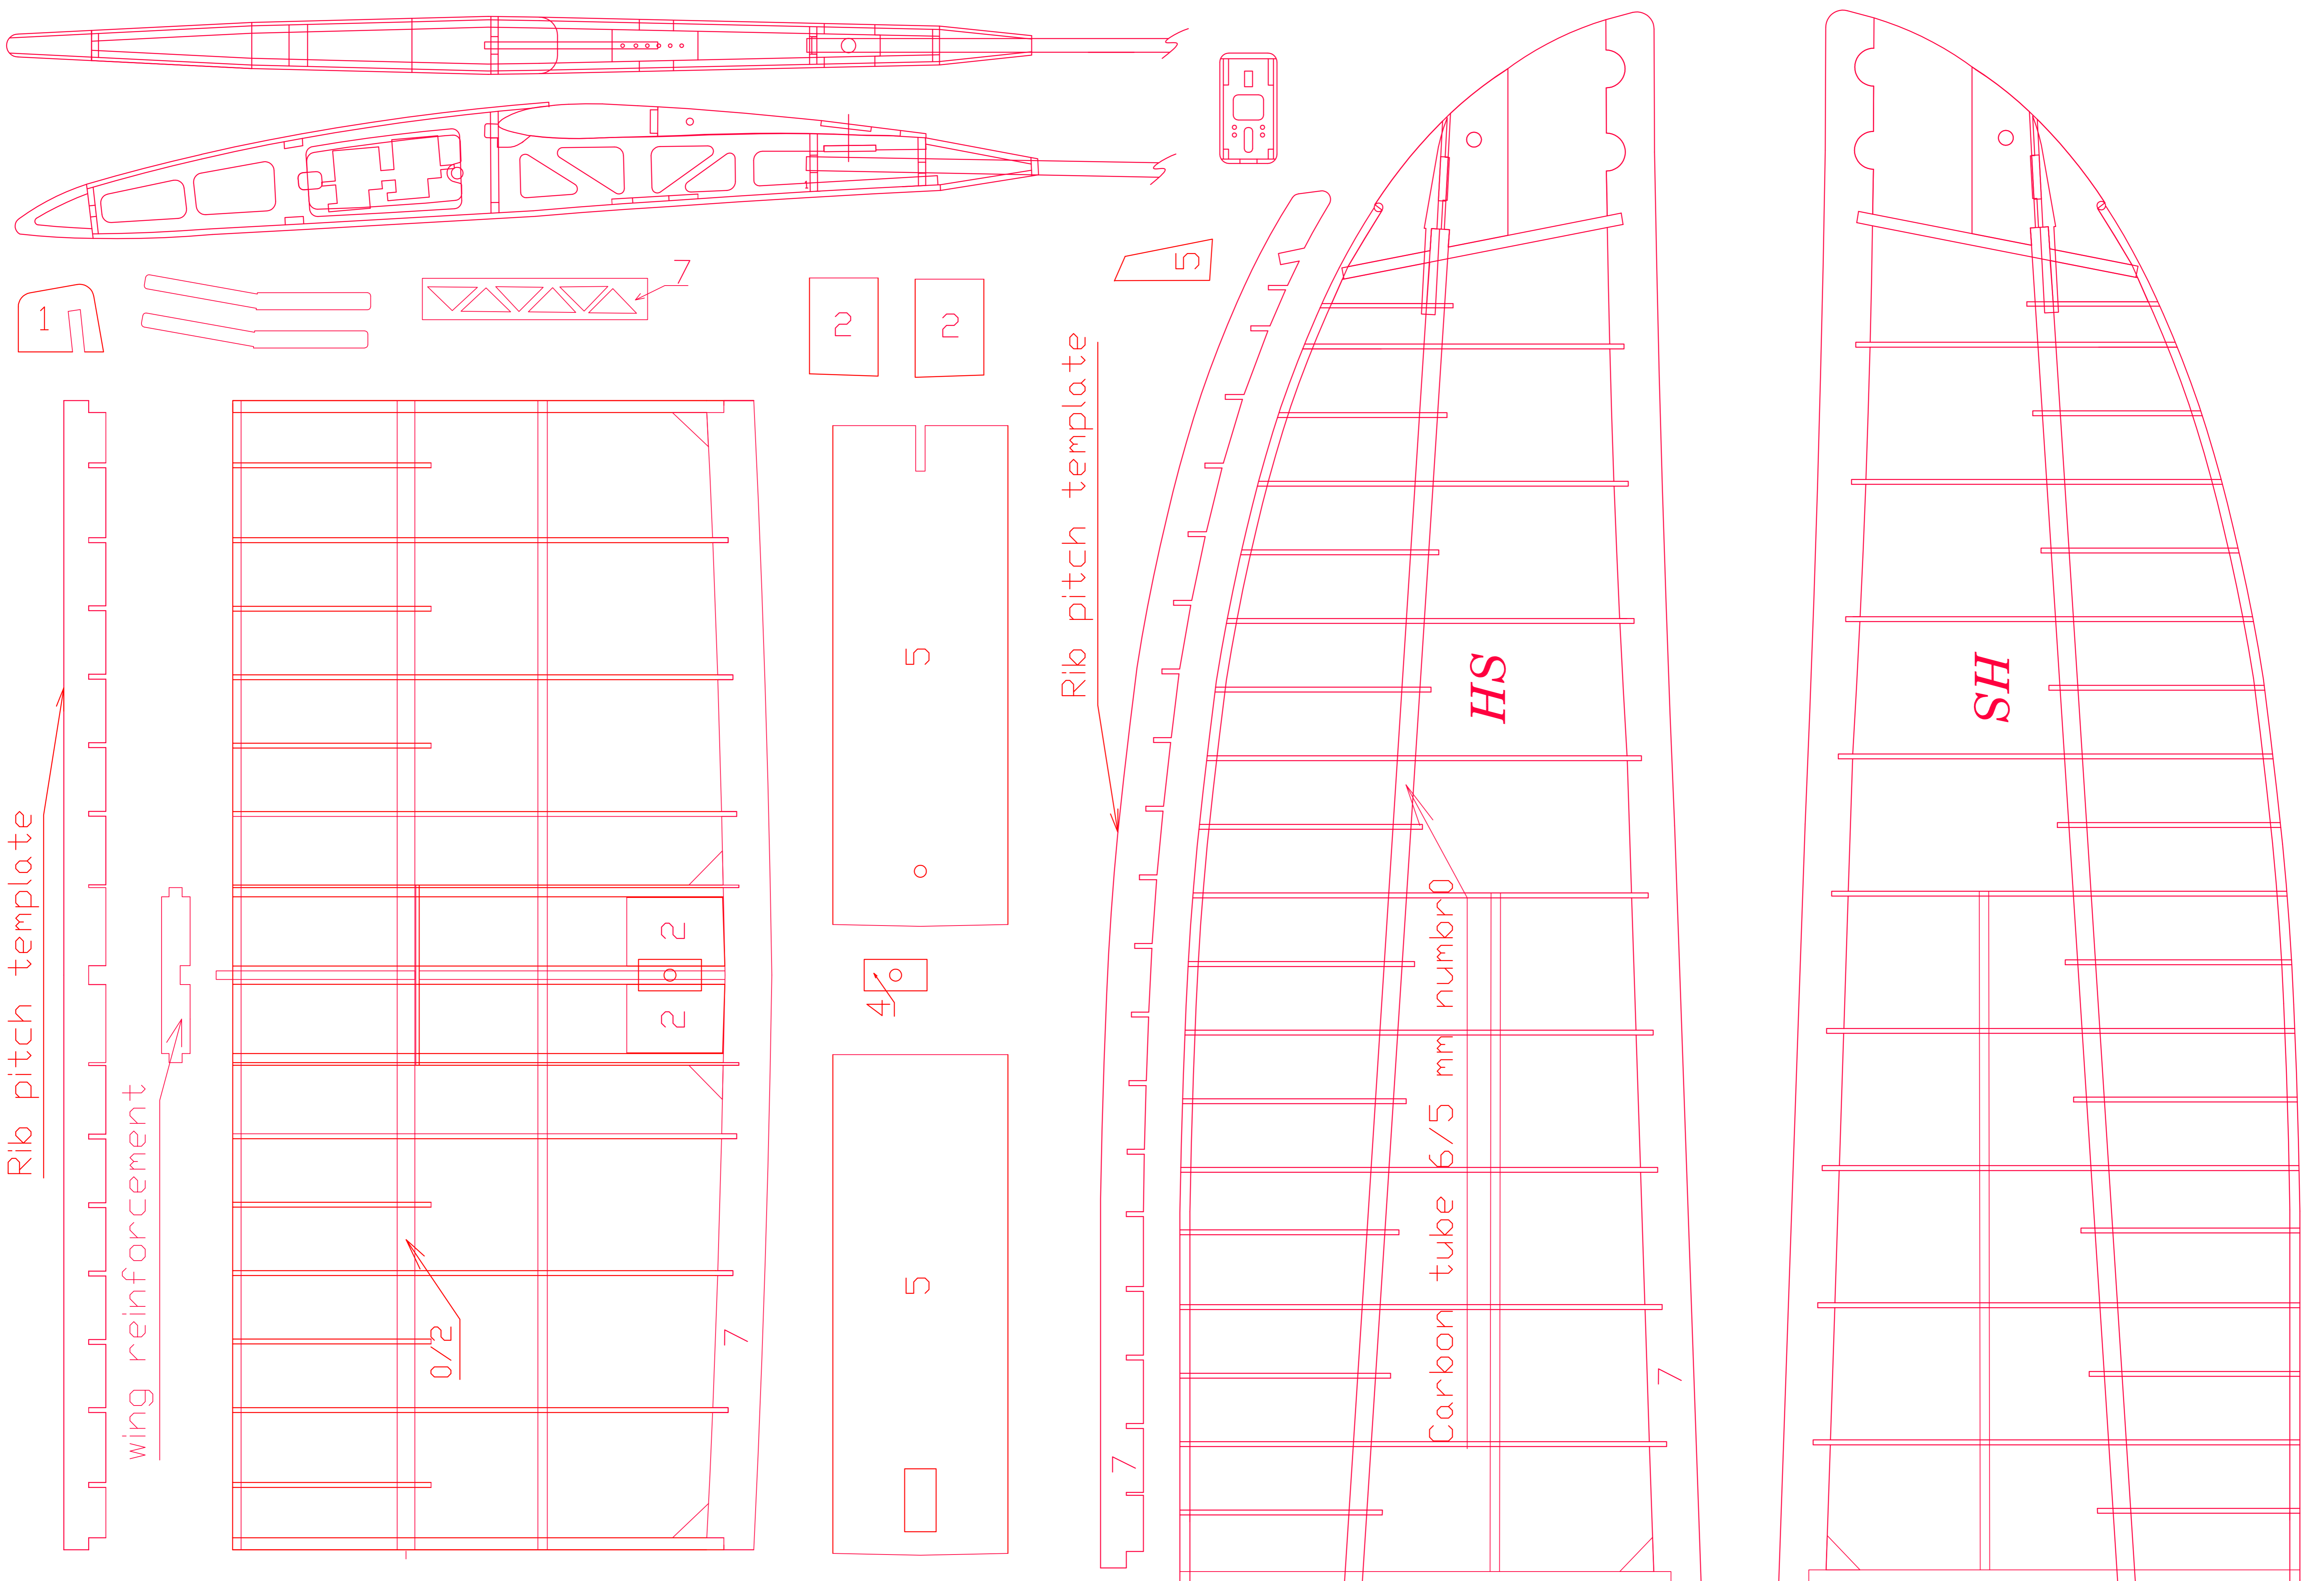

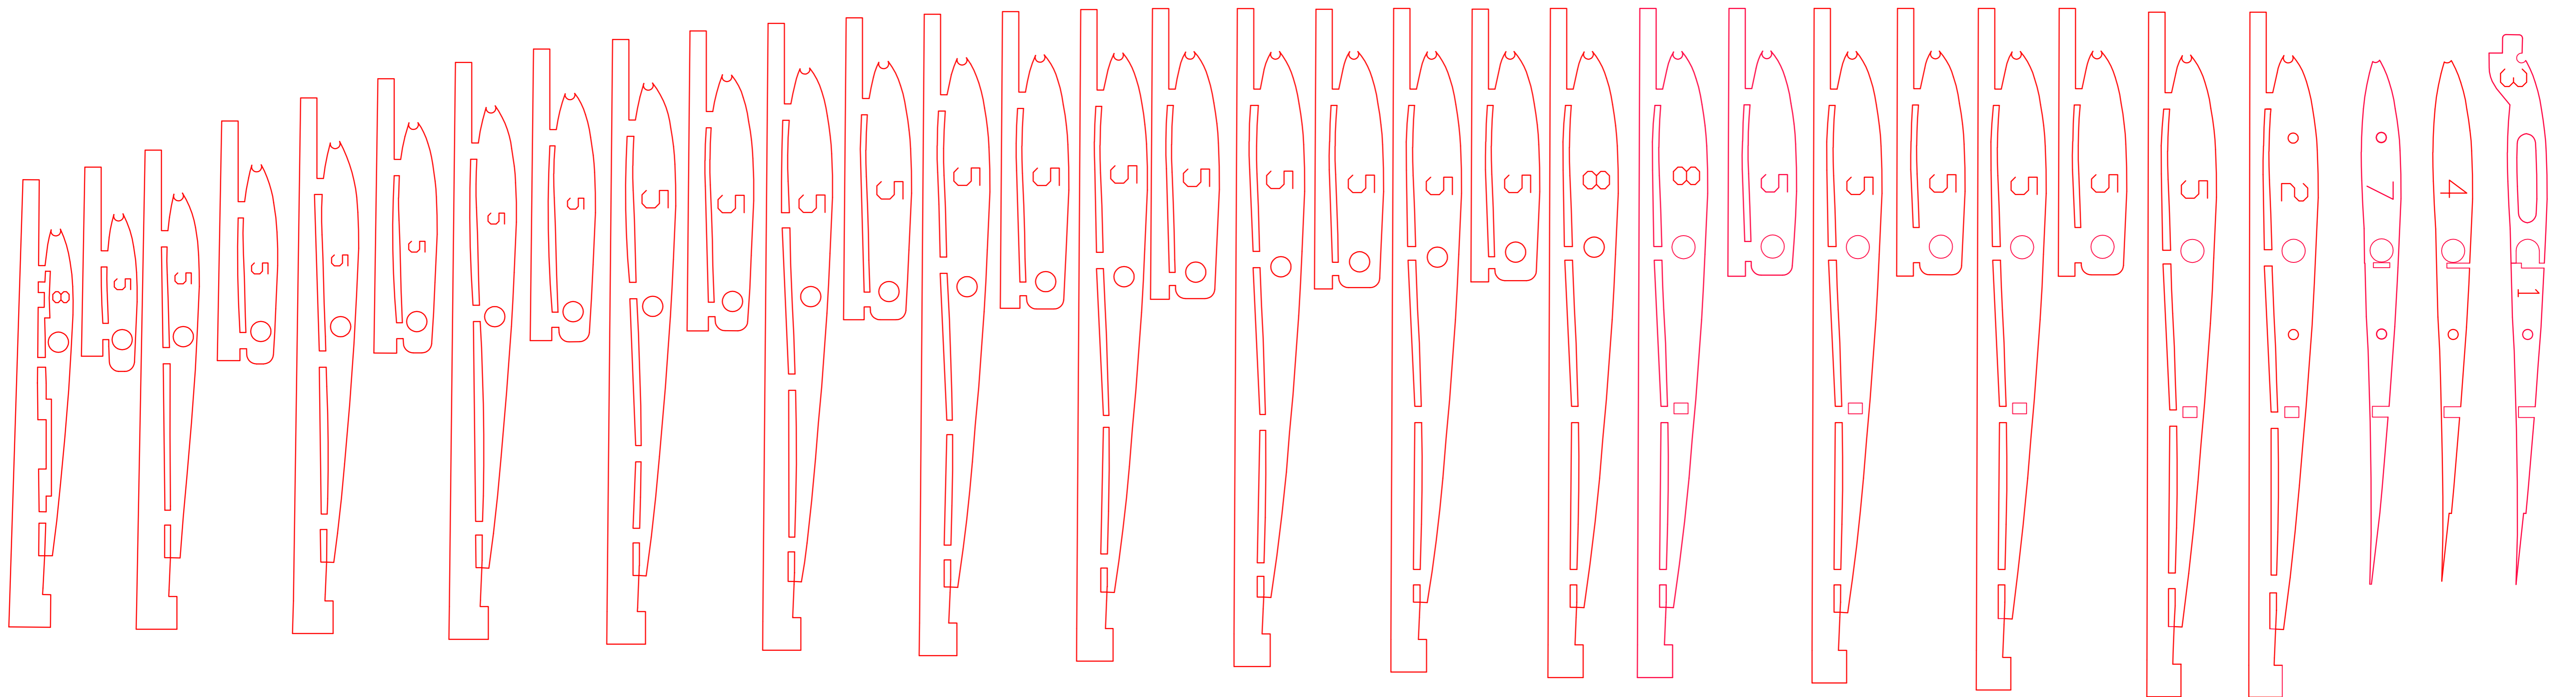

Sport glider.  
Start DLG or rubber catapult.  
Wing span: 1498 mm  
Length: 1070 mm

Flying weight from: 230 g  
Controls: Elevator / rudder  
Profil: YA 8001 (Mitsuru shi) modified  
Wing airfoilCentre of Gravity :74-78 mm

HS

Wing airfoilCentre of Gravity :74-78 mm

List of material:  
Carbon tube 6/5 mm number0  
Carbon tube 7/6 mm number0/2  
Poplar plywood 3 mm - material number 1  
Aviation plywood 0.8 mm - material number 2

Aviation plywood 3 mm - material number 3  
Aviation plywood 2 mm - material number 4  
Balsa 1,5mm- material number 5  
Bals 2 mm - material number 11  
Balsa 2,5mm- material number 6

Balsa 3mm- material number 7  
Balsa 4 mm - material number 8  
Aviation plywood 1.5 mm - material number 9  
Balsa 10mm- material number 10  
Spruce beam 3x4 mm - number 12
